ADVENTURE PACKAGE

Overview:

Experience the most exciting wildlife safari sites in Africa, in the world's most famous national parks: Serengeti, Tarangire and Ngorongoro Crater, as well as the geological beauty of the East African rift valley.

Serengeti National Park is the oldest and most famous national park in Africa, and possibly the best-known wildlife sanctuary in the world. On the other side, Ngorongoro Conservation Area, a UNESCO's World Heritage Site, is the only places on Earth where mankind and wild animals coexist in harmony.

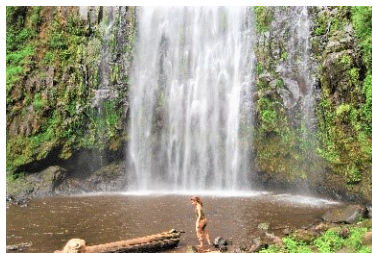

The tour will allow you to witness one of the World's natural Wonders and may be the only one left in the world - the 'Great Migration of the wildebeest and zebras' moving yearly within the Serengeti EcoSystem. The migrating animals are wandering from the woodland to the plains, and the interaction between species is awesomely entertaining.
